Wearing

Charging

Charging the earbuds

When the battery is low, the indicator light will flash red. Place the earbuds in the charging case to charge them. The indicator light will turn solid red while charging and will turn off when the earbuds are fully charged.

Charging the charging case

Connect the charging case to a power source using a USB-C cable. The indicator light will turn solid red while charging and will turn off when the charging case is fully charged.

Turning On

Open the charging case. The earbuds will turn on automatically and enter pairing mode.

Turning Off

Place both earbuds in the charging case and close the lid. The earbuds will turn off automatically.

Connection

Pairing automatically

Open the charging case. The earbuds will enter pairing mode automatically. Make sure Bluetooth is enabled on your device. Select "Redmi Buds 4" from the Bluetooth settings on your device to connect.

Pairing manually

If the earbuds do not enter pairing mode automatically, place them in the charging case, close the lid, and then open it again. Make sure Bluetooth is enabled on your device. Select "Redmi Buds 4" from the Bluetooth settings on your device to connect.

Connecting to other devices

Make sure Bluetooth is enabled on the device you want to connect to. Select "Redmi Buds 4" from the Bluetooth settings on your device to connect.

Restoring Factory Settings

Place both earbuds in the charging case and close the lid. Wait for 10 seconds, then open the lid and remove the earbuds. Press and hold the touch control on each earbud for 5 seconds until the indicator light flashes yellow and white alternately. The earbuds will restart and restore factory settings.

Specifications

Model: TWSEJ05WM
Earbuds
Size: 21.3 mm × 18.7 mm × 18.8 mm
Weight: 4.0 g (left) / 4.0 g (right)
Charging Case
Size: 46.5 mm × 46.5 mm × 21.5 mm
Weight: 38.0 g
Wireless
Bluetooth version: Bluetooth® 5.2
Charging Case
Battery capacity: 410 mAh
Charging time: 1.5 h
Charging power: 5 W

Important Safety Information

- Do not disassemble, crush, puncture, or incinerate the product. Do not expose the product to high temperatures or environments with high pressure. Doing so may cause the product to overheat, explode, or catch fire, and may also result in leakage of flammable liquids or gases.
- Do not use damaged charging cables, plugs, or loose power outlets.
- Do not use the product while charging during a thunderstorm.
- Do not use the product in environments with temperatures above 45°C (113°F) or below 0°C (32°F).
- Do not use the product in environments with high humidity, such as bathrooms.
- Do not use the product in environments with strong magnetic fields.
- Do not use the product in environments with static electricity greater than the level required by industry standards.
- Do not use the product in environments with corrosive gases, liquids, or other substances.
- Do not use the product in environments with strong vibrations.
- Do not use the product in environments with strong ultraviolet radiation.
- Do not use the product in environments with dust or sand.
- Do not use the product in environments with strong electromagnetic interference.
- Do not use the product in environments with strong electrostatic discharge.
- Do not use the product in environments with strong electromagnetic pulses.
- Do not use the product in environments with strong electromagnetic radiation.
- Do not use the product in environments with strong electromagnetic waves.
- Do not use the product in environments with strong electromagnetic fields.
- Do not use the product in environments with strong electromagnetic noise.
- Do not use the product in environments with strong electromagnetic interference
